MAD ABOUT SPORTS

AI GYAN

Trained 1,70,000+ people in AI & Prompt Engineering

We achieved INR 3.5 cr+ monthly revenue in 12 months with the help of AI

Tool #1

Want a research assistant
in your team who works 24/7?

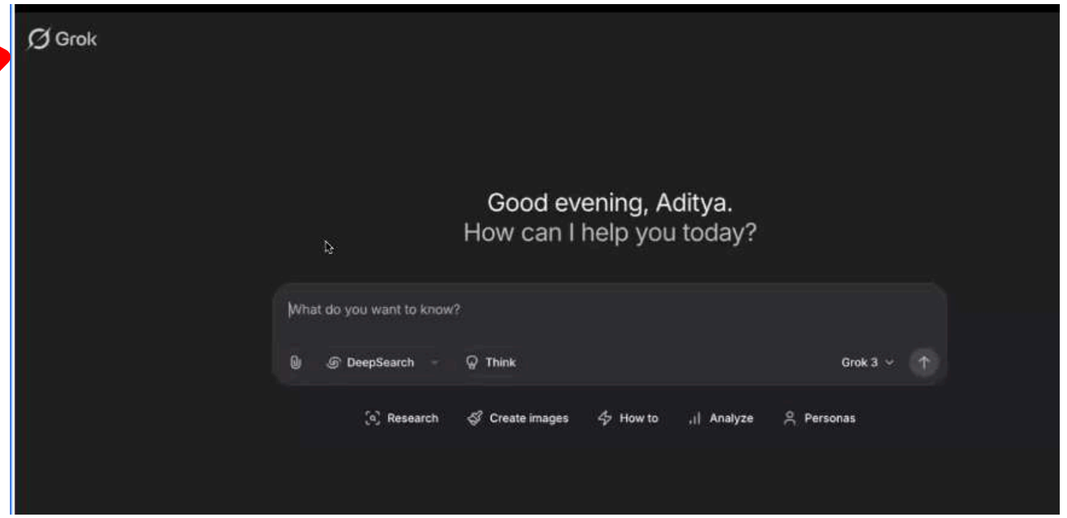
be10X

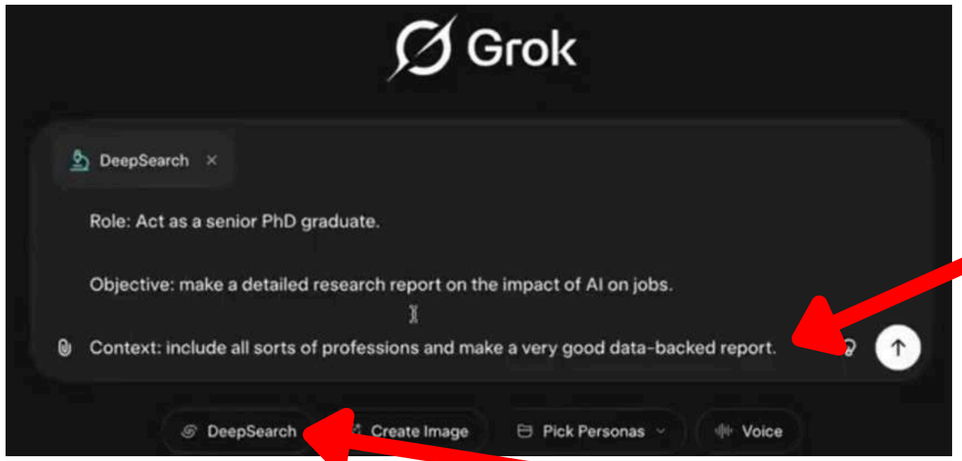
Grok

APPLICATION:

- Deep Search to make consultant level reports

Step 1: Go to Grok.com



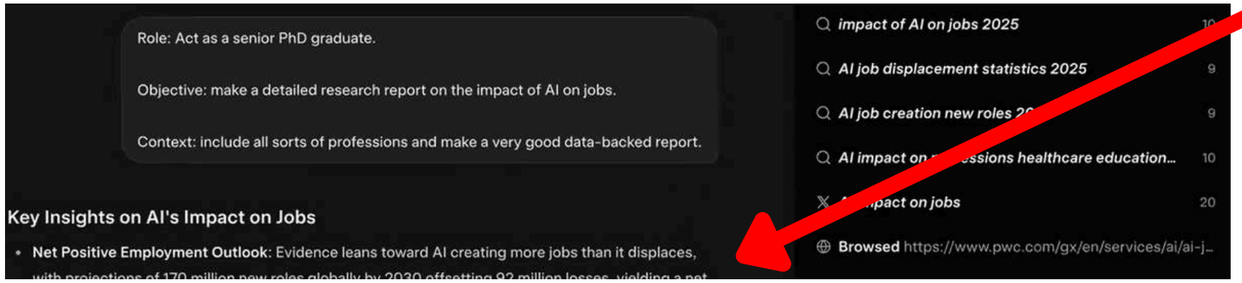


Step 2: Give it a customized prompt according to your need by typing in the box or through text to speech button.

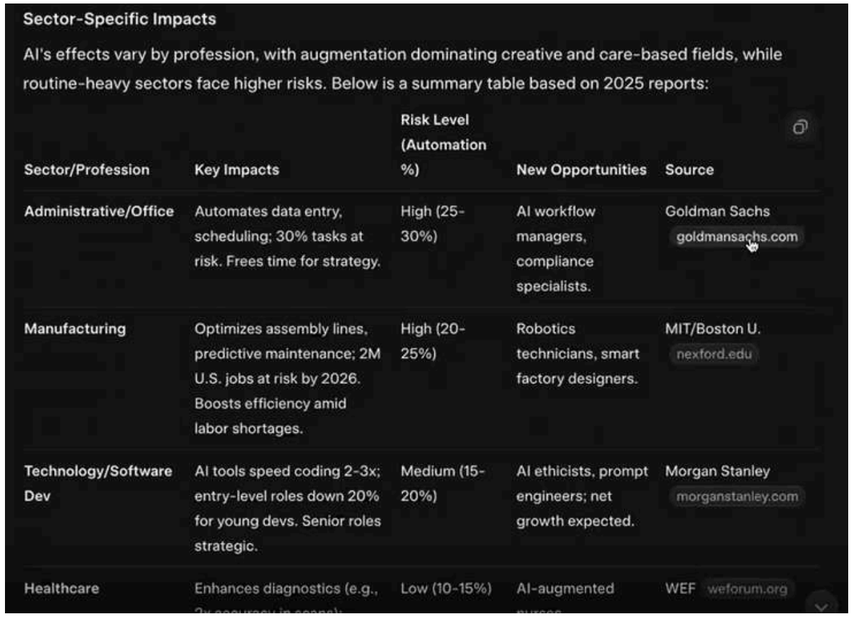
Step 3: Enable the deep research option here

What is a prompt: In AI, a prompt is the input provided to a model to elicit a specific response

It will start generating the detailed and structured output



At the end, you will get a detailed report as per your requirement, also with all the references and its links.



Sector-Specific Impacts

AI's effects vary by profession, with augmentation dominating creative and care-based fields, while routine-heavy sectors face higher risks. Below is a summary table based on 2025 reports:

Sector/Profession	Key Impacts	Risk Level (Automation %)	New Opportunities	Source
Administrative/Office	Automates data entry, scheduling; 30% tasks at risk. Frees time for strategy.	High (25-30%)	AI workflow managers, compliance specialists.	Goldman Sachs goldmansachs.com
Manufacturing	Optimizes assembly lines, predictive maintenance; 2M U.S. jobs at risk by 2026. Boosts efficiency amid labor shortages.	High (20-25%)	Robotics technicians, smart factory designers.	MIT/Boston U. nexford.edu
Technology/Software Dev	AI tools speed coding 2-3x; entry-level roles down 20% for young devs. Senior roles strategic.	Medium (15-20%)	AI ethicists, prompt engineers; net growth expected.	Morgan Stanley morganstanley.com
Healthcare	Enhances diagnostics (e.g.,	Low (10-15%)	AI-augmented	WEF weforum.org

Tool #2

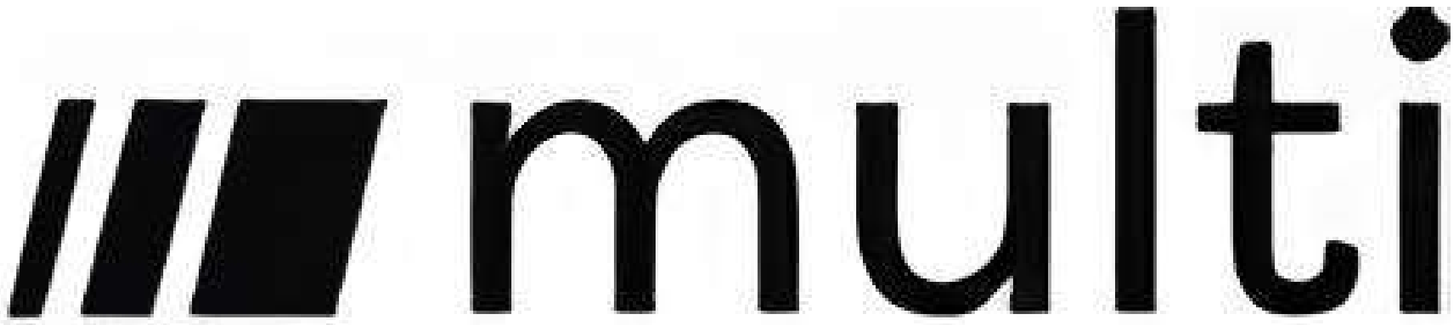
Don’t trust only grok to do the work and want to try it in gemini, chatgpt, etc?

be10X

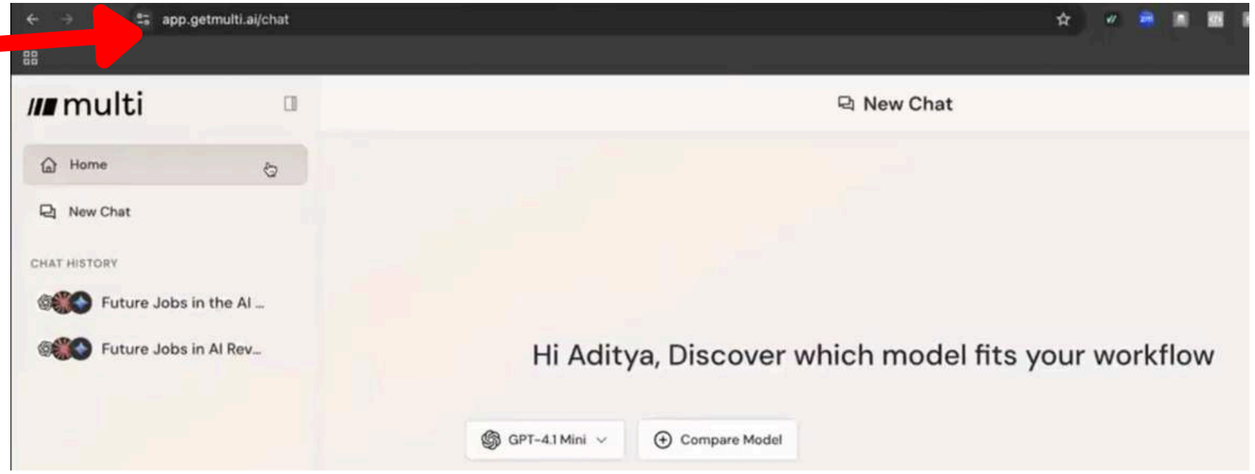
Get Multi

APPLICATION:

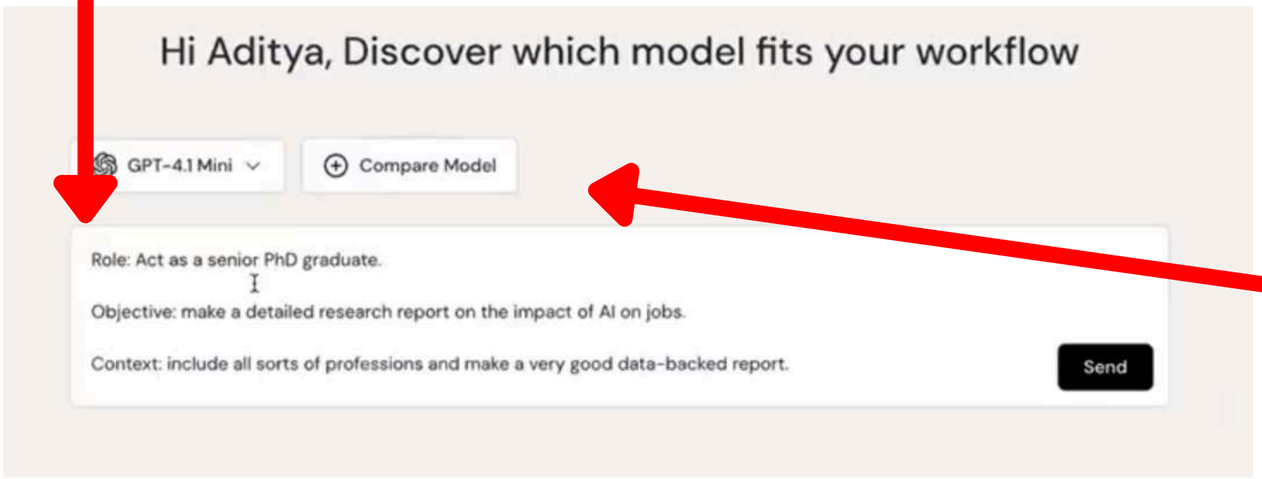
- Your all-in-one AI companion for writing, coding, research, design, automation, and productivity-faster, smarter, and effortless.



Step 1: Go to app.getmulti.ai

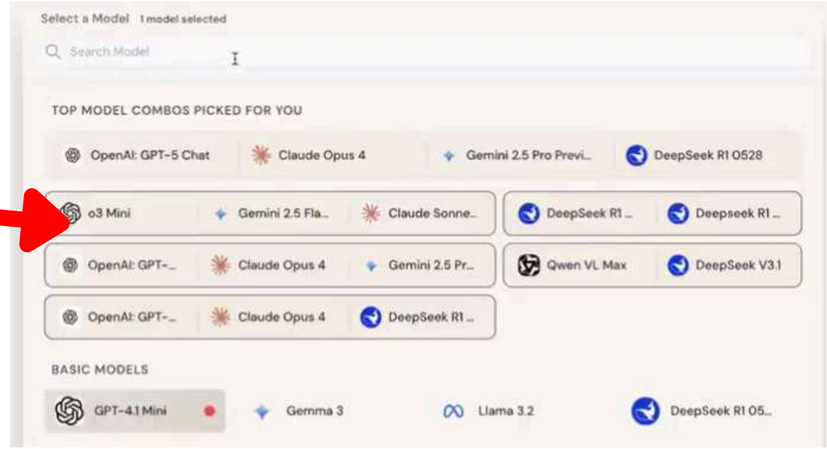


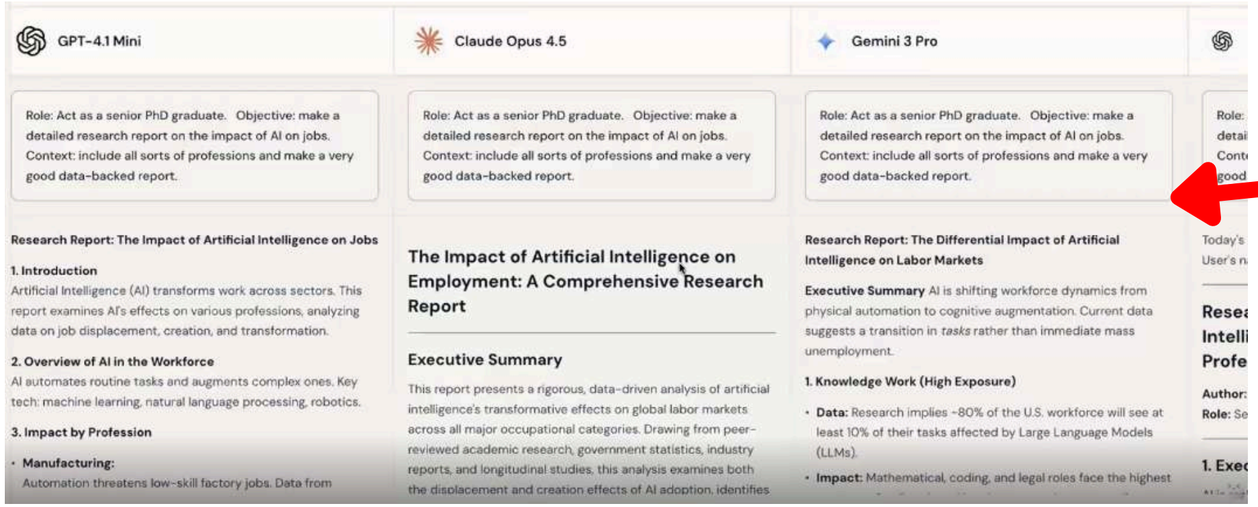
Step 2: Give it a customized prompt according to your need by typing in the box



Step 3: Select the different models that you want to compare by clicking on Compare Model

Step 4: Select all the models to compare





All models generate answers simultaneously, and you can choose the best output .

Tool #3

Too lazy to type?

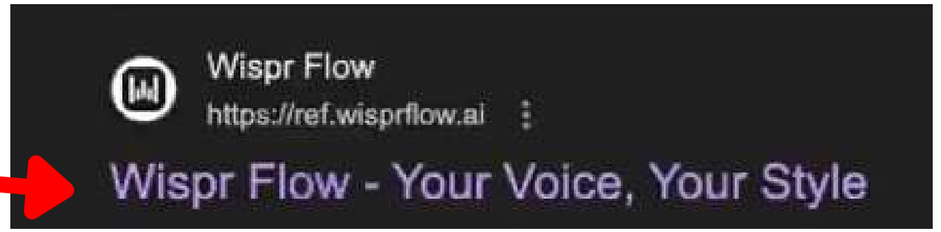
be10X

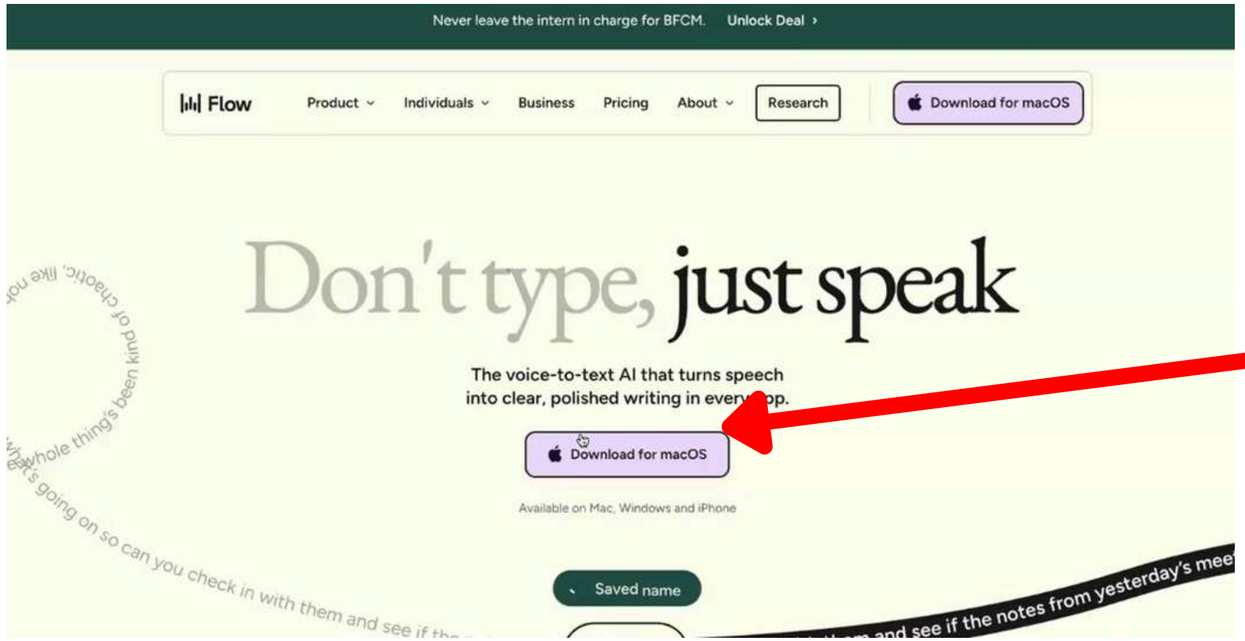
Wispr Flow AI

APPLICATION:

- No more typos. No more distractions. Just effortless, voice-powered writing. Write effortlessly with AI-powered dictation.

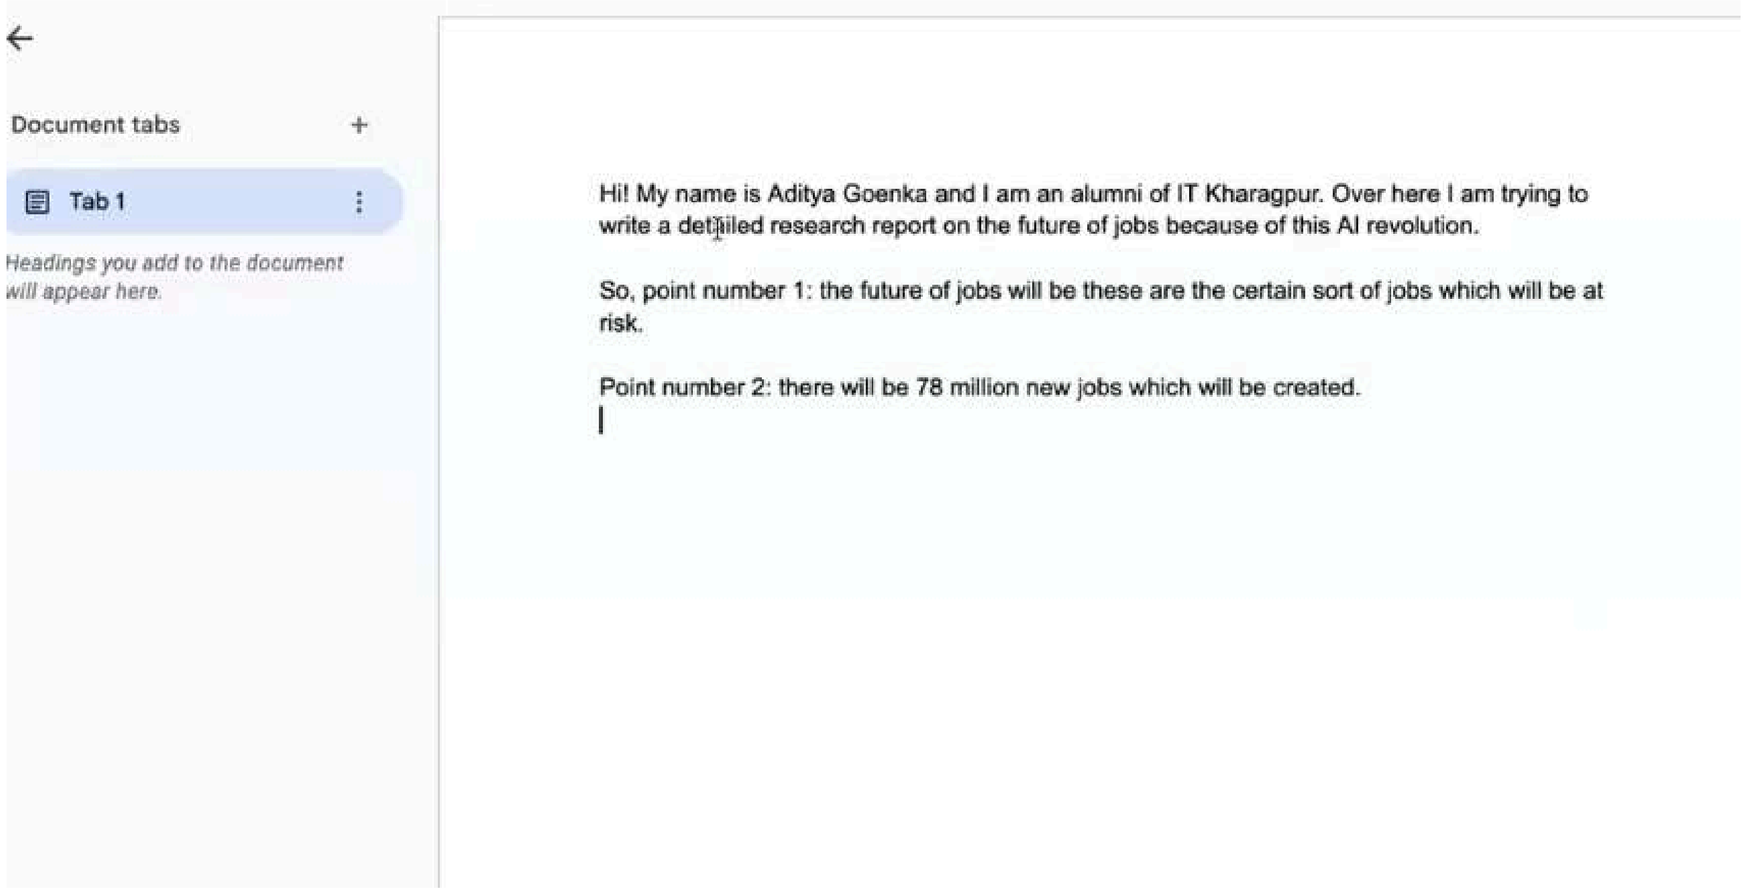
Step 1: Go to wisprflow.ai





Step 2: Download it from here — available for Windows, macOS, and mobile devices.

Click the trigger button and speak - your words will be captured by the system.



Tool #4

Want to analyse a scanned PDF or a file and find insights from it?

be10X

Would you like to analyze stocks like Warren Buffet?

be10X

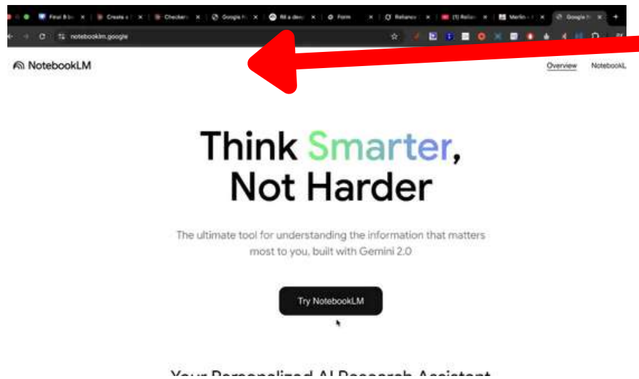
Notebook LM

APPLICATION:

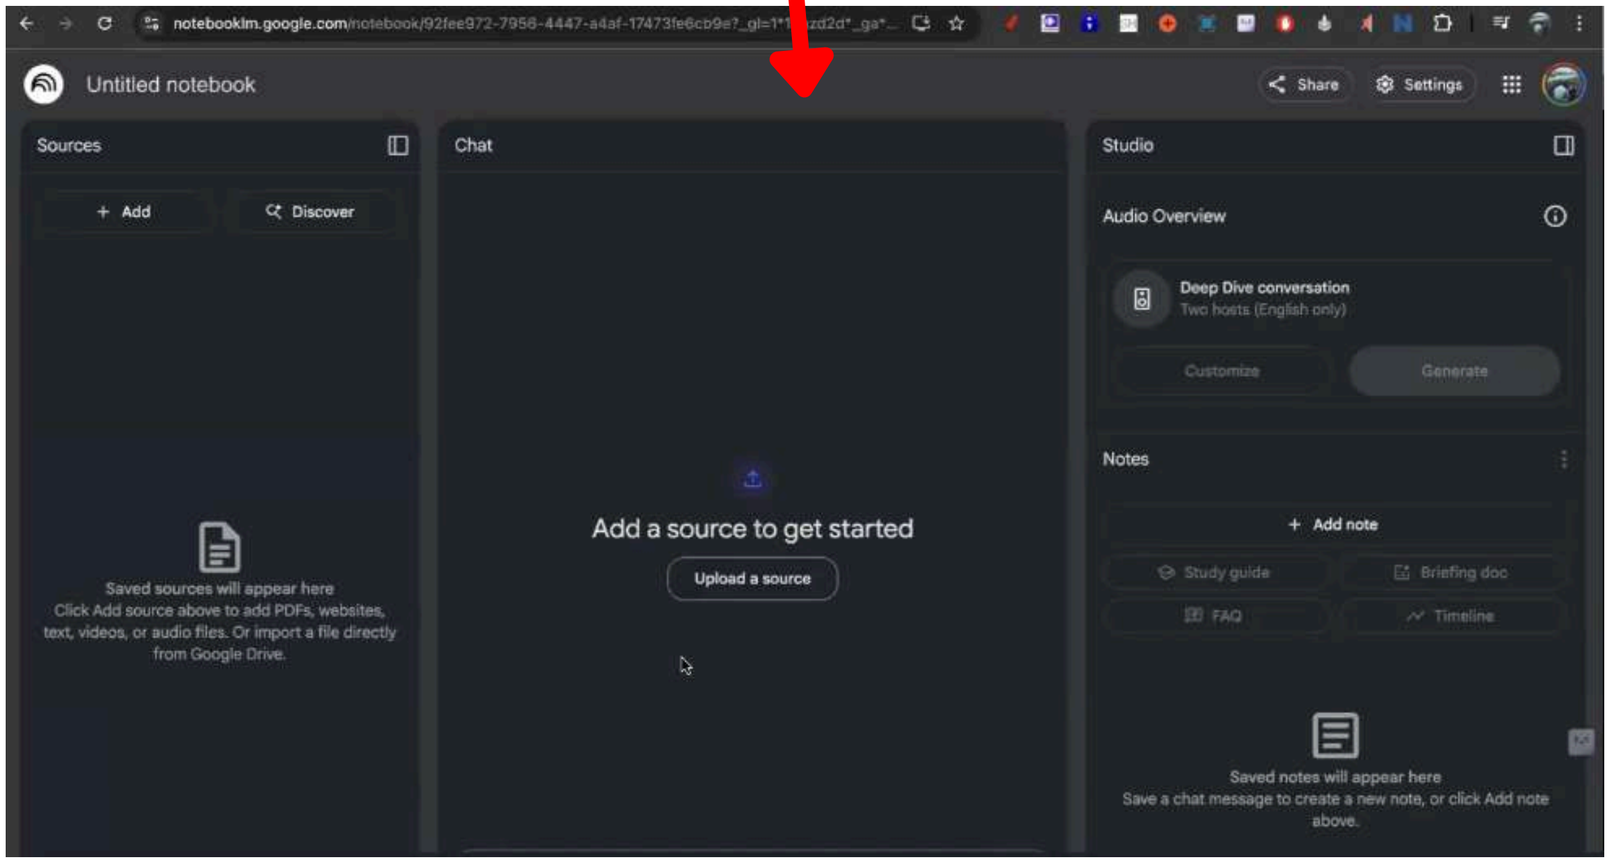
- Summaries any PDF, scanned document, book, link, article at click of a button. Generate PPTs, Infographics, Podcasts, etc

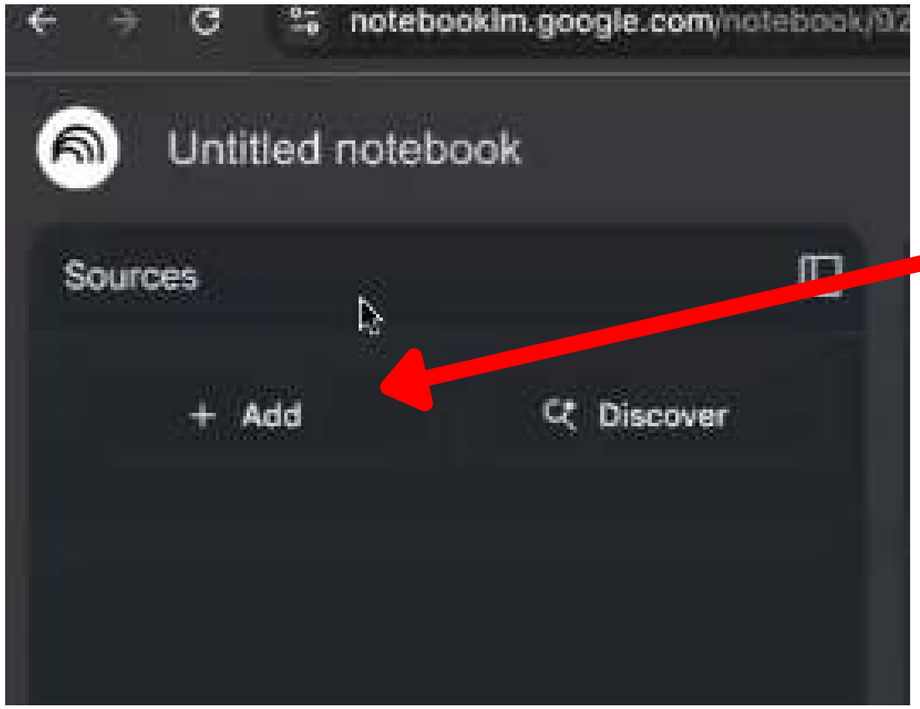
NotebookLM

Step 1: Go to NotebookLM



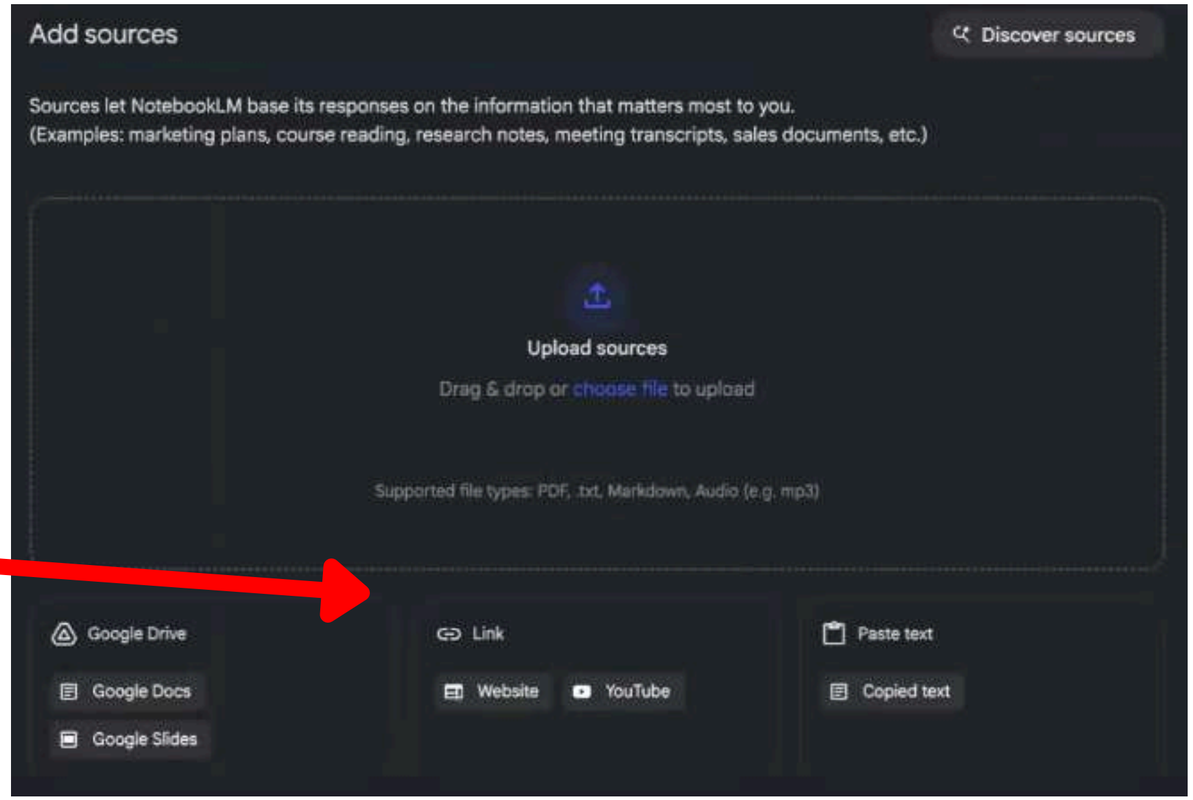
You will get a interface like this



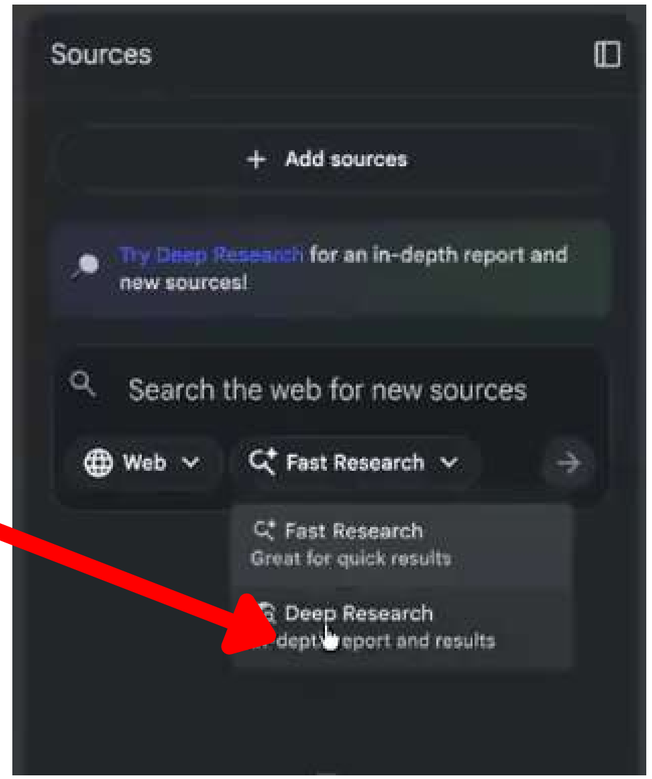


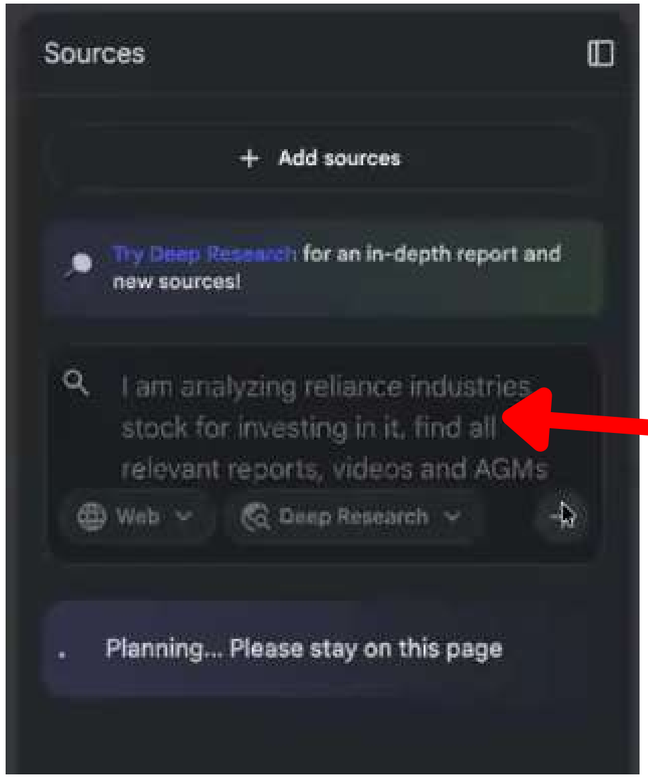
You can add your sources(multiple) from here

You can upload multiple type of content like document, audio, video, YT link, Copied text and more



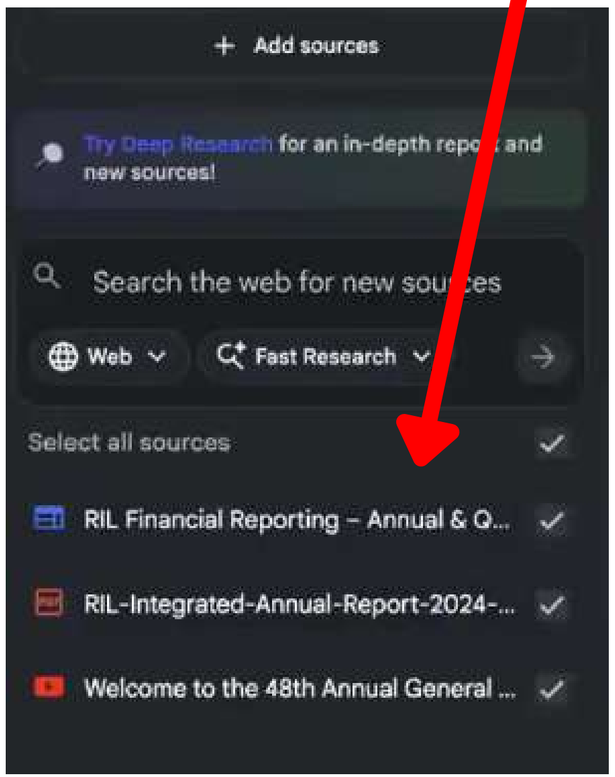
You can also search the file by clicking on the Deep Research



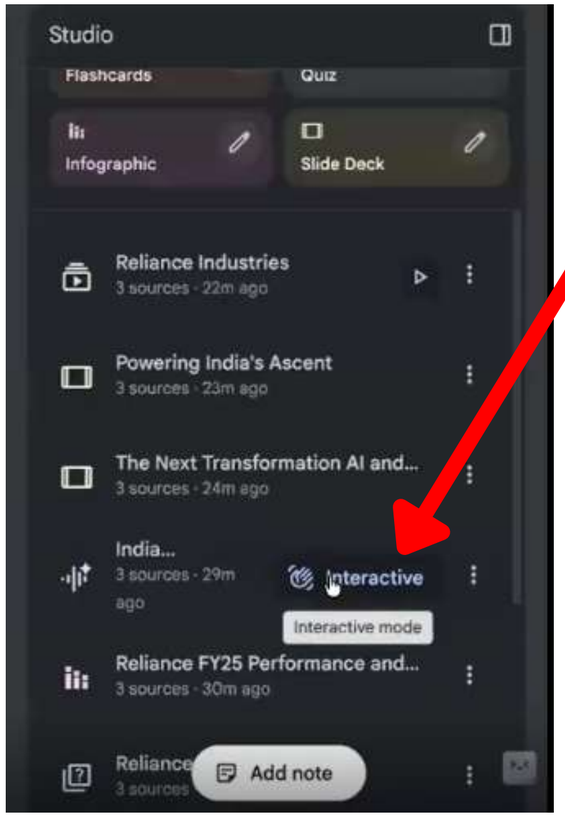


Describe what you want to search here; the system will search for it and then display the results.

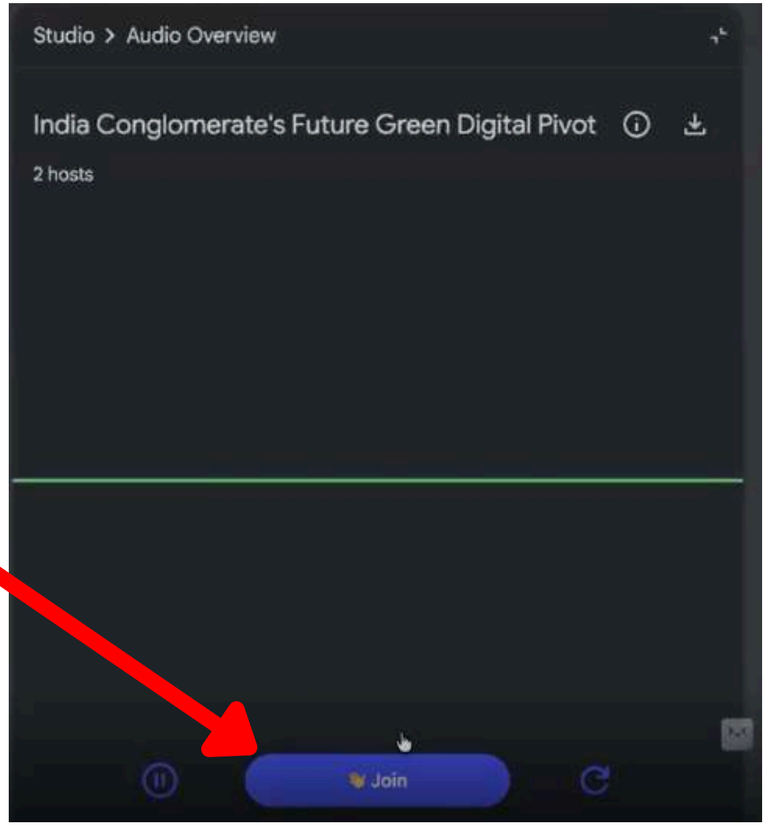
Any document you upload here can be turned into a podcast — just click “Audio Overview,”



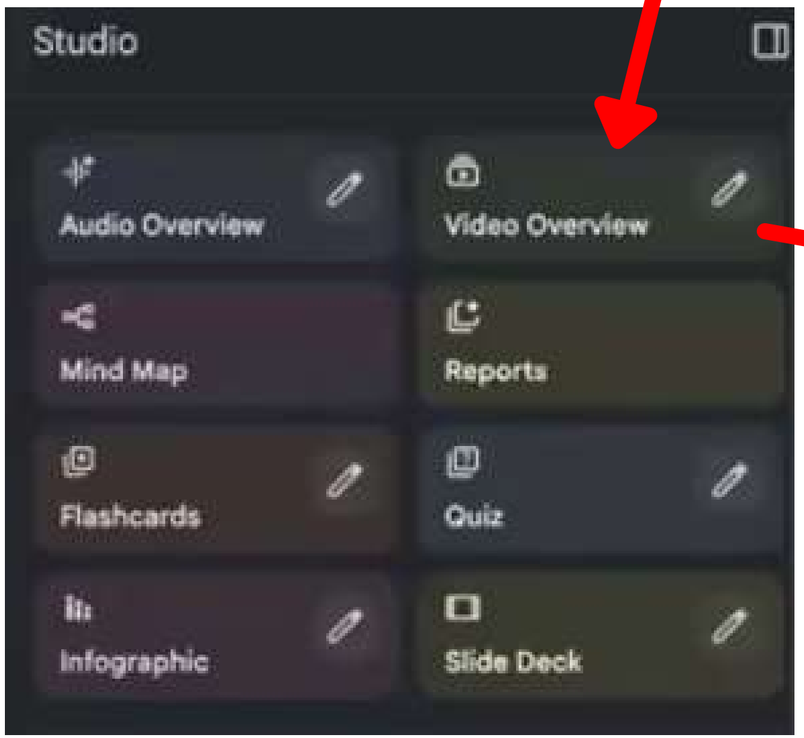
You can join the podcast and ask questions directly within it by clicking the interactive button.

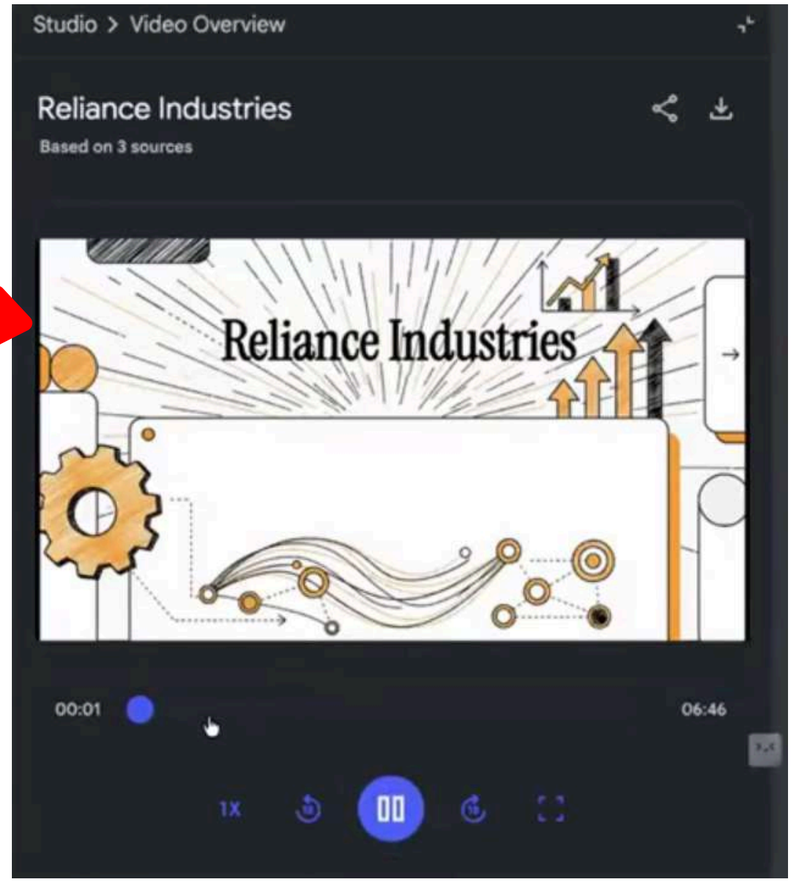


Click on the join button to join the podcast

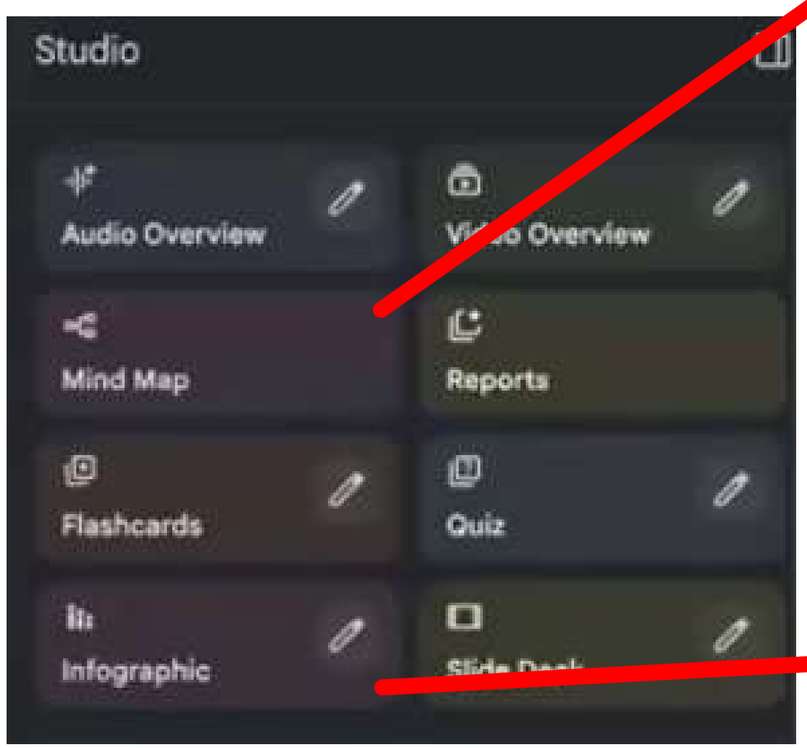


Click “Video Overview” to watch a video about the uploaded resource.

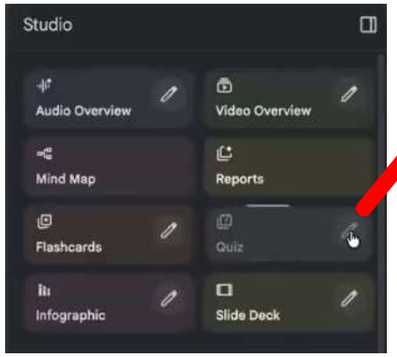


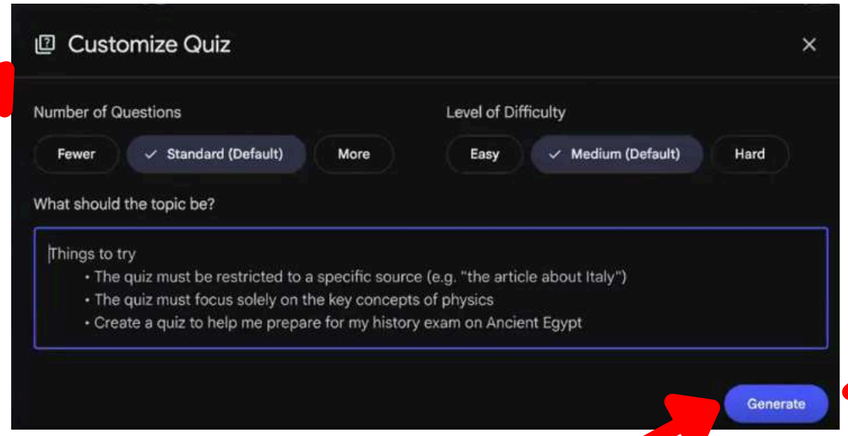


You can also create mind maps, and infographics.

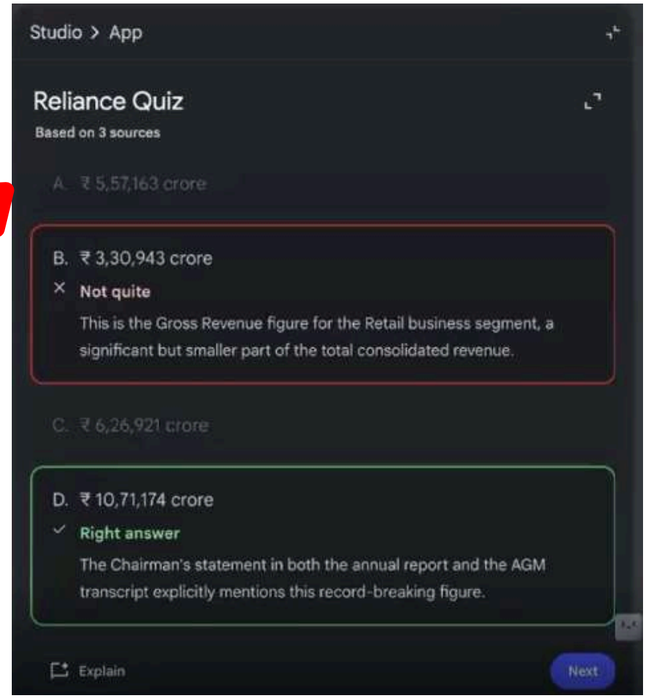


You can also create quizzes and customize them by adjusting the difficulty and the number of questions.



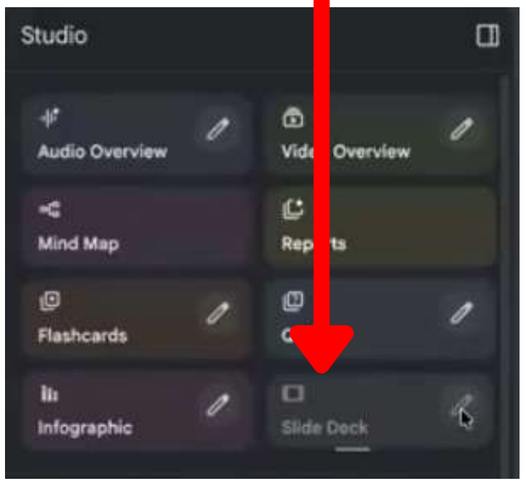


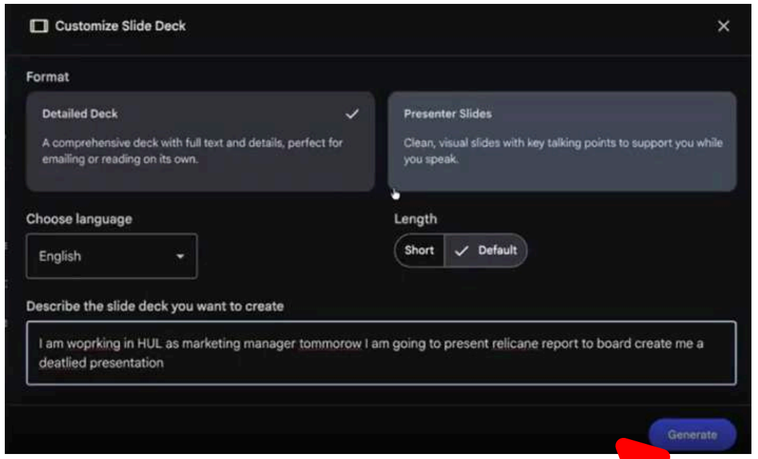
Click the “Generate” button, and the quiz will be created.



Once you upload the document or source material, you can generate professional slides that are editable in Google Slides.

Step 1:click on the slide deck

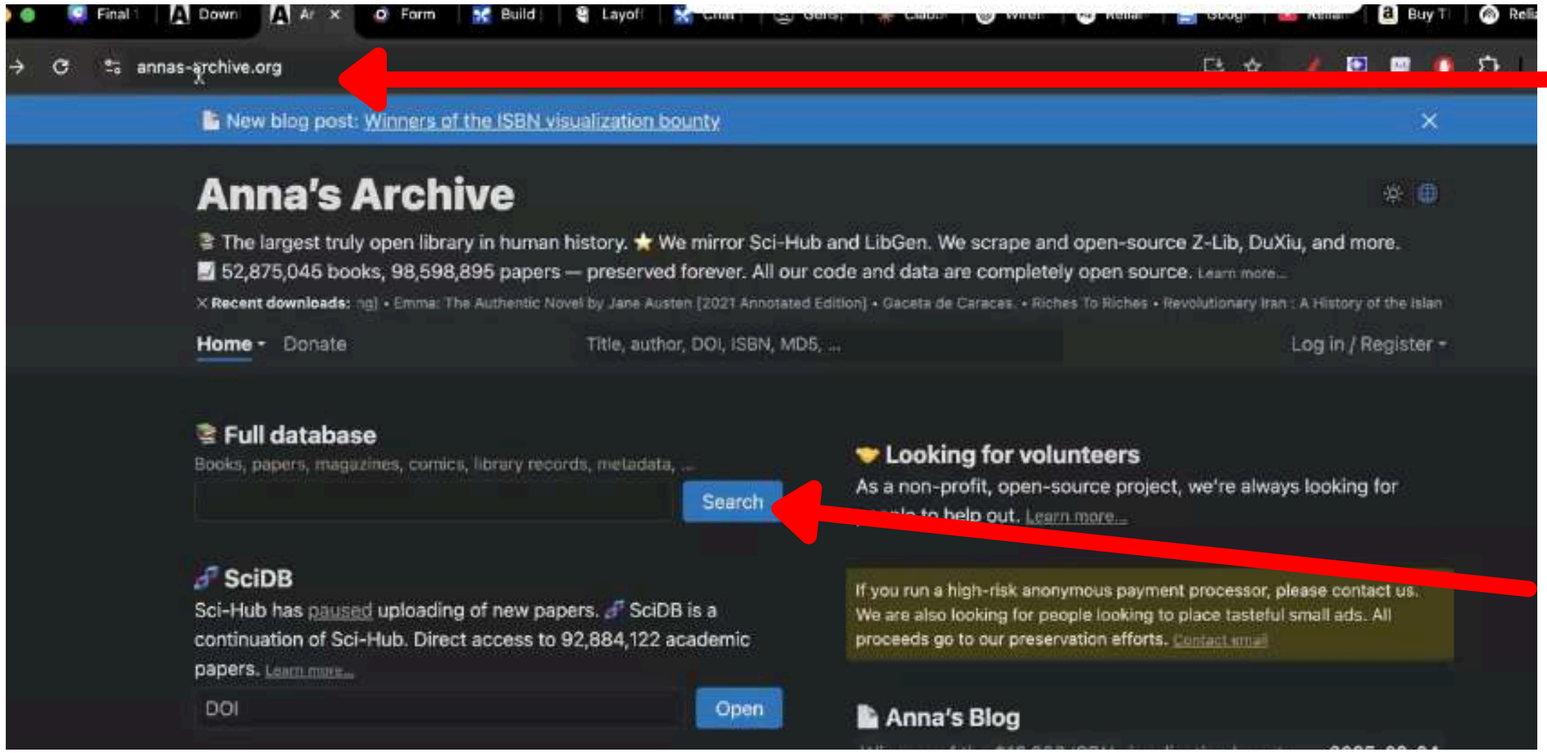




Step 2: Here, you can customize the slides, enter your prompt, and then click the “Generate” button.

Professional slides will be created in a short time.

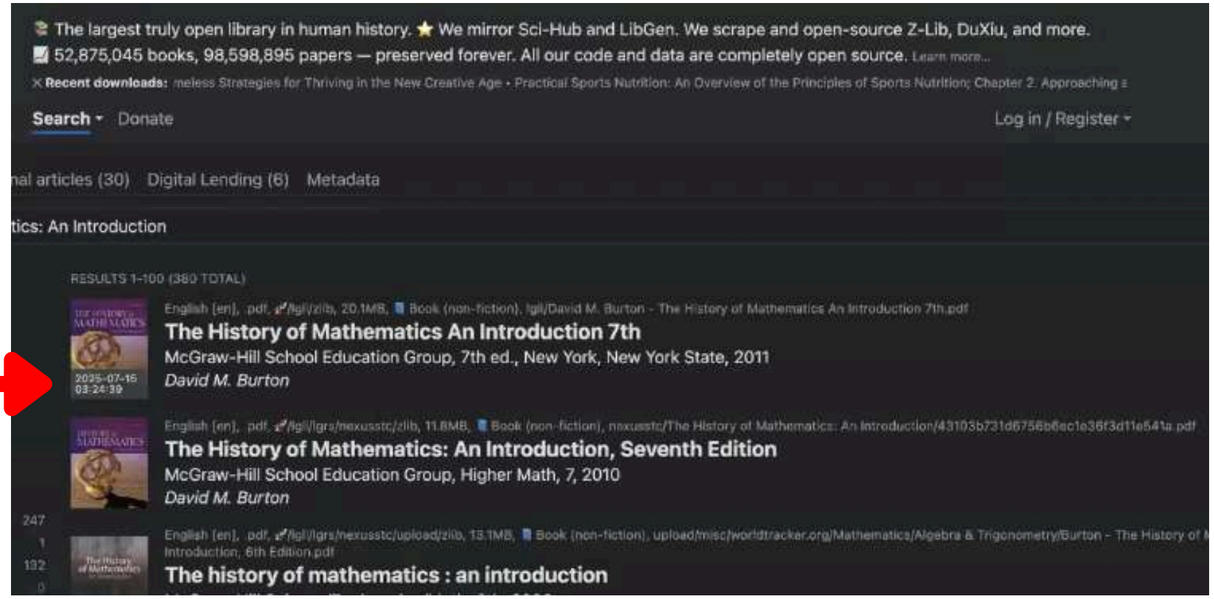
Want to get any book for free?

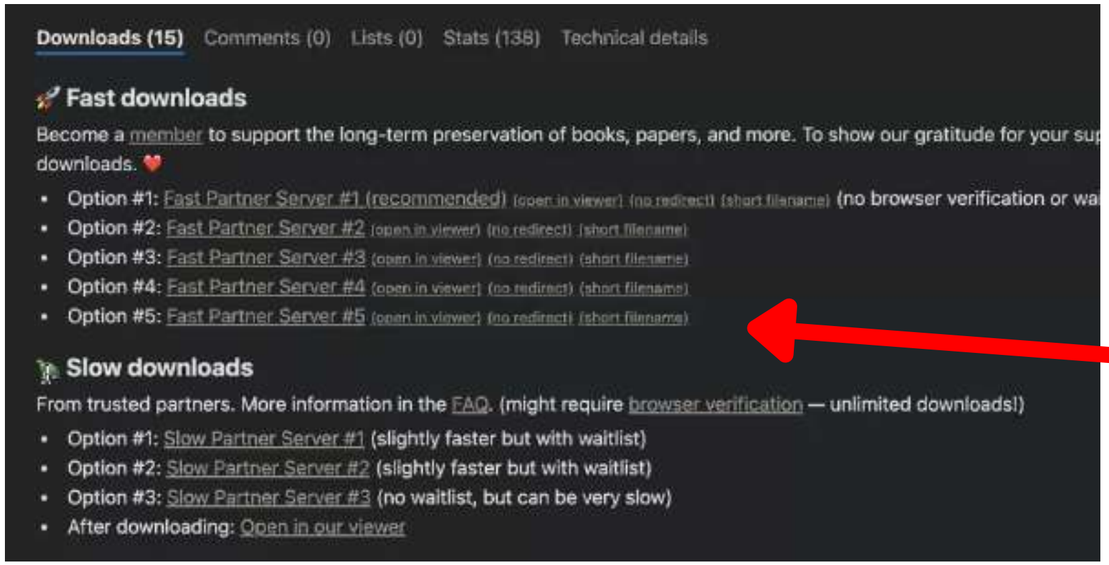


Go to anna's archive

Enter the name of the book and name of the author.

Click on search and you will get the link to your book, click on the desired link





And done you book is read, download your book.

Tool #5

Want to create posters / creatives for your work using AI?

be10X

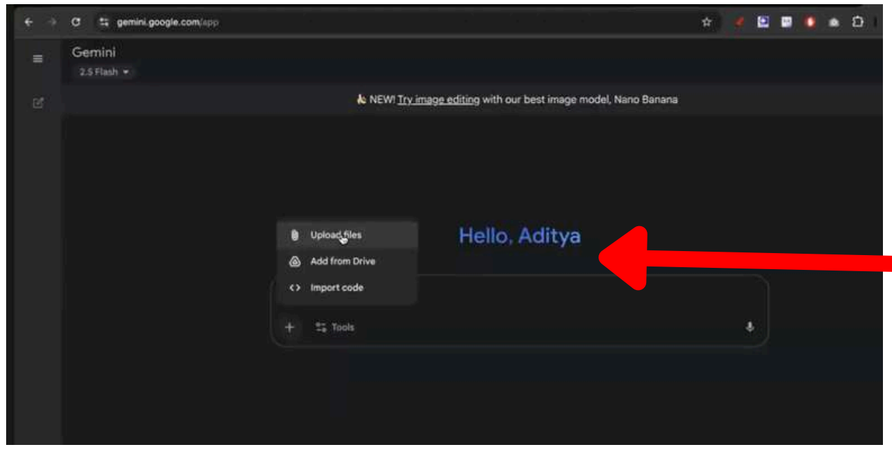
Gemini

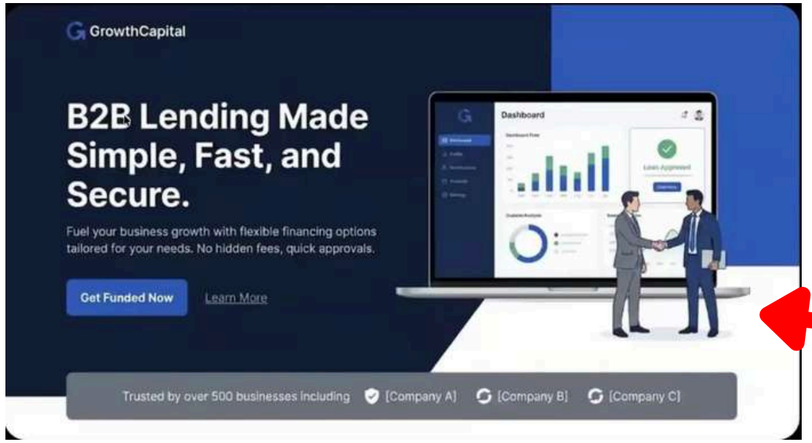
APPLICATION:

- Creating unique and engaging visuals for projects, social media content, and personal branding.



Go to gemini.ai and select the file that you want to upload via upload file option.

Give it a prompt as per your need and start the chat.



Done your desired result will be ready in seconds.

Tool #6

Takes a lot of time to do web development?

Or you don’t know how to do it?

be10X

Gemini

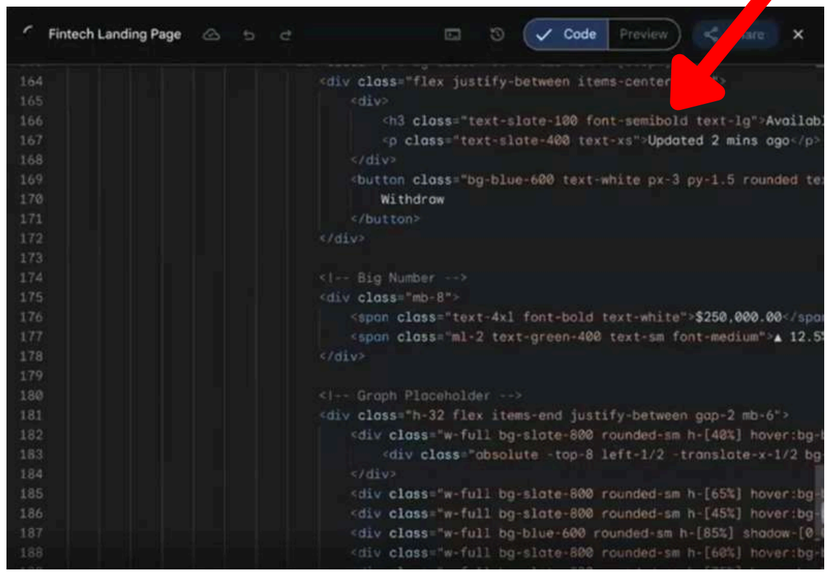
APPLICATION:

- Can create UI for the website
- Can write code for the frontend
- Can write code for the backend

You can create a website from the image you provide.

Give the promt as well as the image as per your need and start the chat

Done your desired result will be ready in few minutes.



Tool #7

Want to build entire applications as well without coding knowledge?

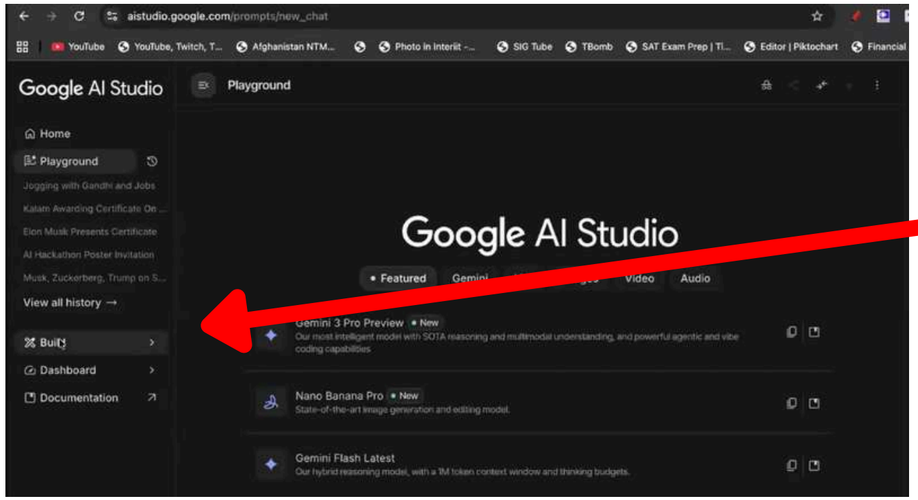
be10X

be10x

Google AI Studio

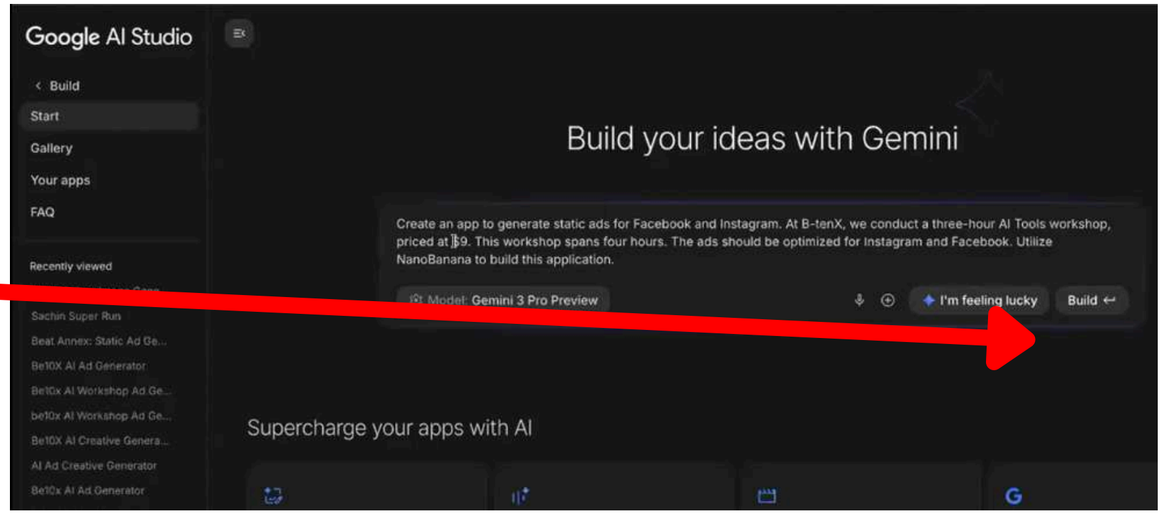
APPLICATION:

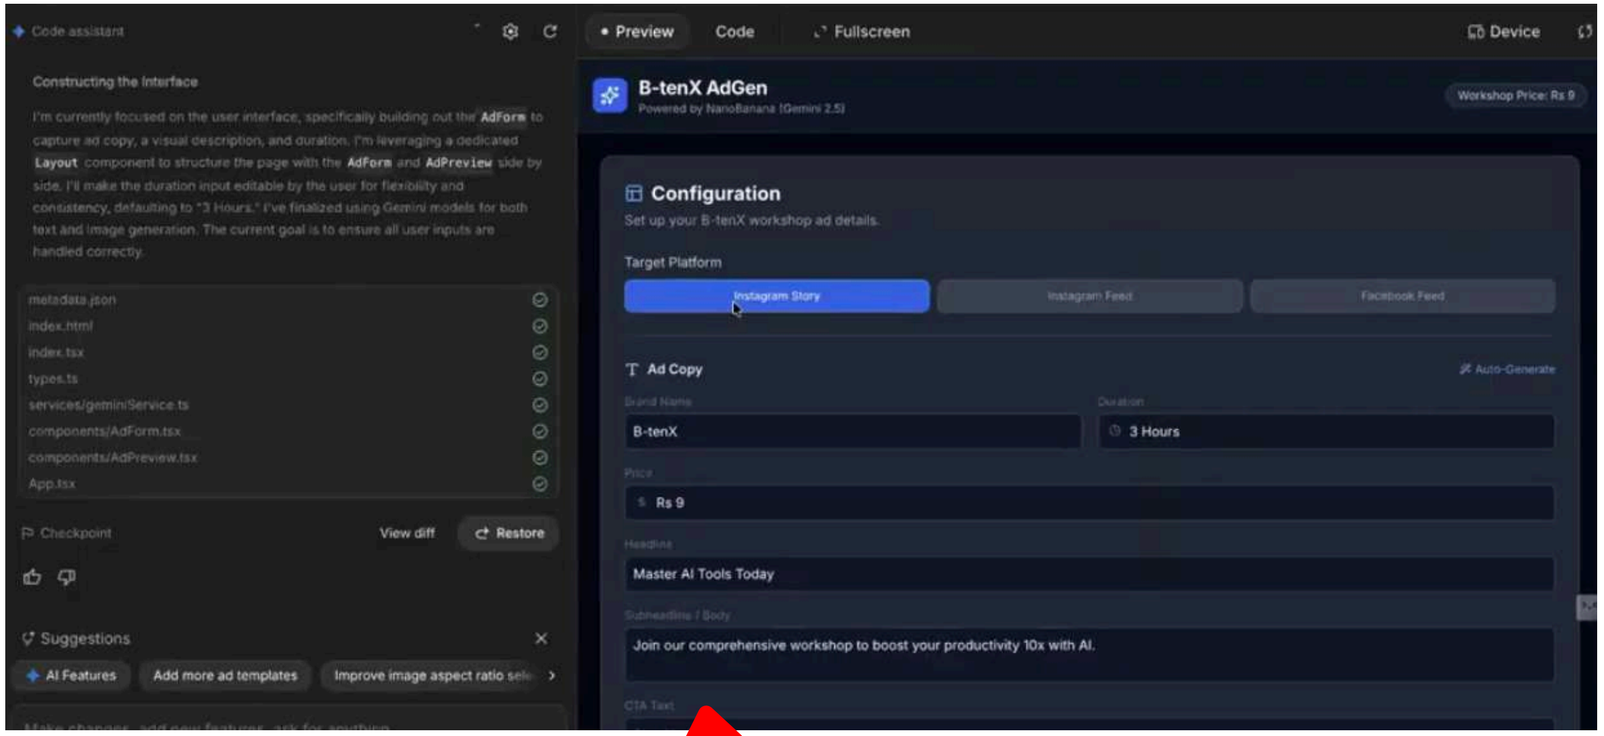
- Use latest models from google and create applications for free



Go to aistudio.google.com and click on build .

Give the promt as per your need and start the chat





Done your desired result will be ready in seconds.

Tool #8

Find it too time consuming to
do Data Analysis and
derive meaninful insights out of it?

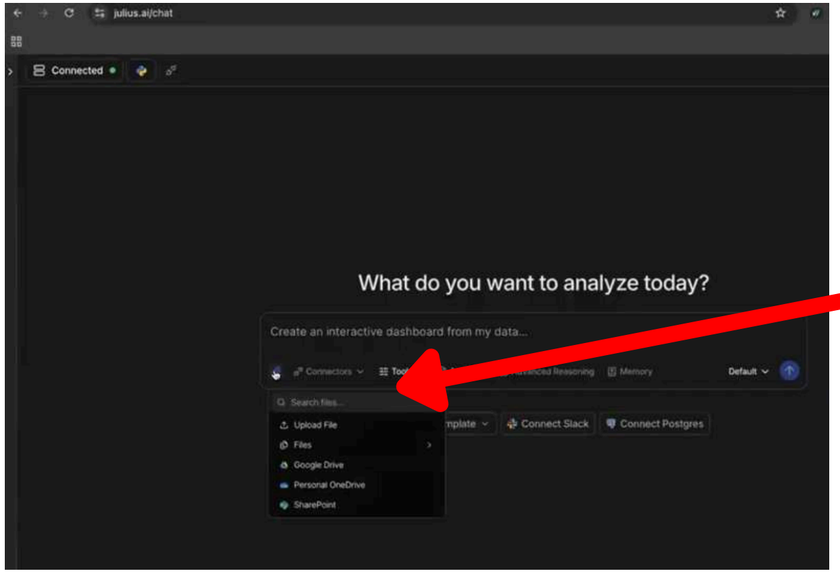
be10X

Julius AI

APPLICATION:

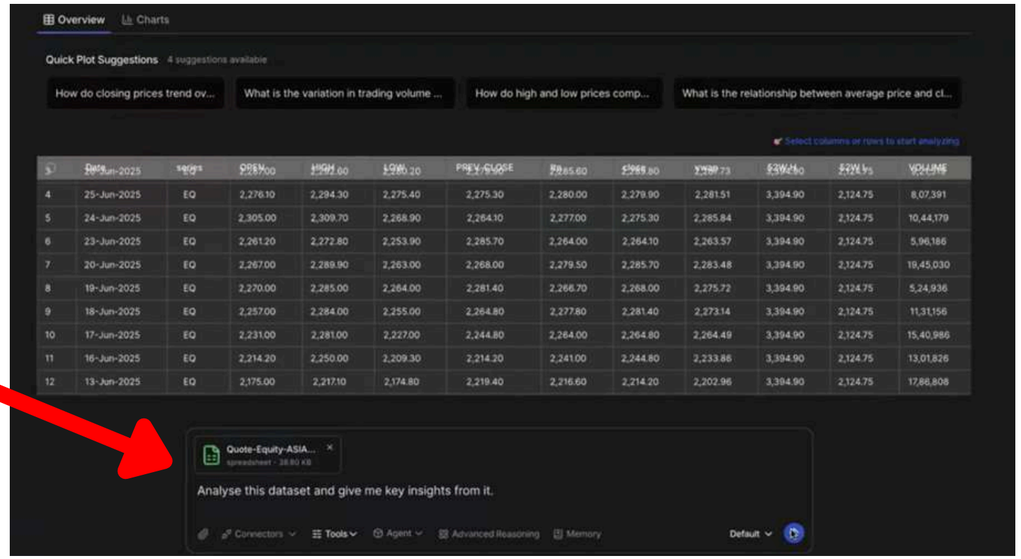
- Helps you analyse and visualise your data 10x better

Julius



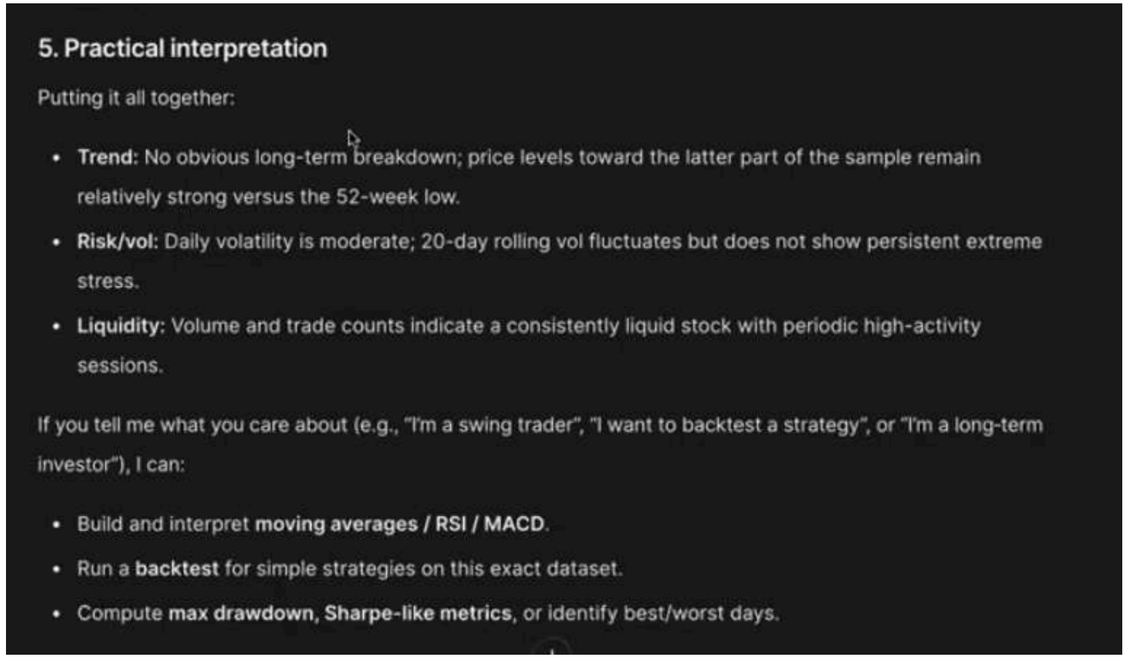
Go to julius.ai and upload your dataset.

Give the promt as per your need and start the chat



It provides useful insights along with different types of charts that are helpful for data analysis.

	Date	close	return_pct	vol_20d
249	2024-07-01	2927.8		
248	2024-07-02	2925.6	-0.07514174465469425	
247	2024-07-03	2925.55	-0.0017090511348016868	
246	2024-07-04	2934.9	0.3195980243031249	
245	2024-07-05	2935.9	0.3407271116562249	



5. Practical interpretation

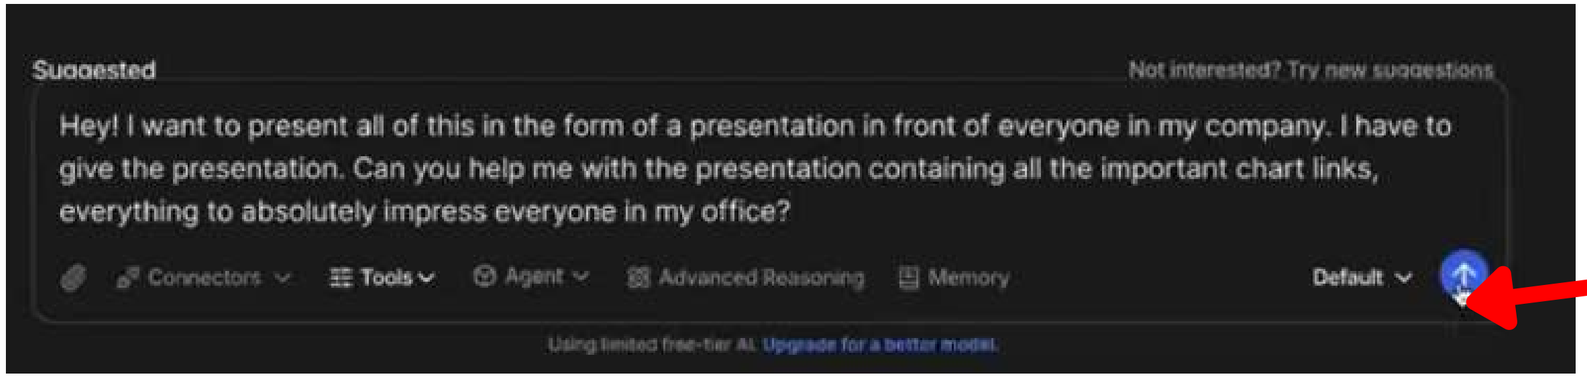
Putting it all together:

- **Trend:** No obvious long-term breakdown; price levels toward the latter part of the sample remain relatively strong versus the 52-week low.
- **Risk/vol:** Daily volatility is moderate; 20-day rolling vol fluctuates but does not show persistent extreme stress.
- **Liquidity:** Volume and trade counts indicate a consistently liquid stock with periodic high-activity sessions.

If you tell me what you care about (e.g., "I'm a swing trader", "I want to backtest a strategy", or "I'm a long-term investor"), I can:

- Build and interpret **moving averages / RSI / MACD**.
- Run a **backtest** for simple strategies on this exact dataset.
- Compute **max drawdown, Sharpe-like metrics**, or identify best/worst days.

You can also create a PPT containing all the useful insights.



Give the promt and start the chat

Done your desired result will be ready in seconds.

Tool #9

Not getting enough interview calls for the jobs you’re applying for?

10X Resume Hack

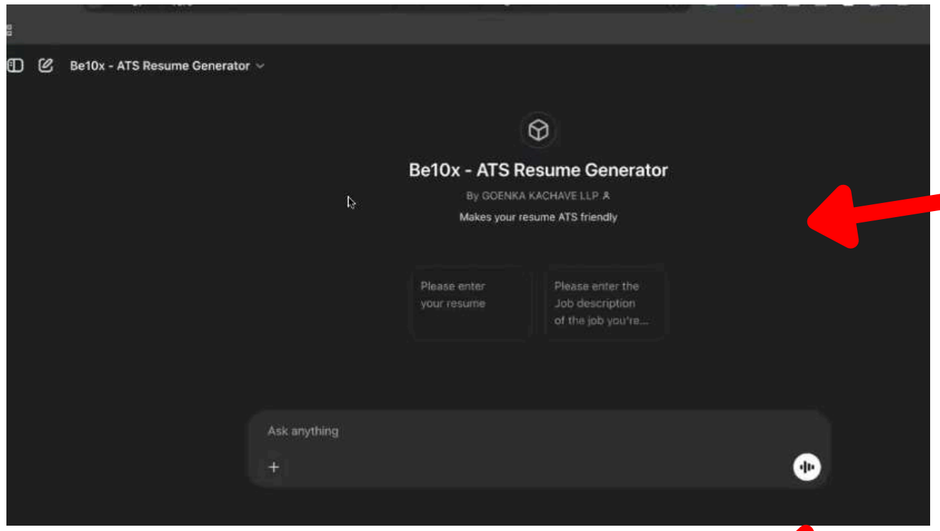
APPLICATION:

- Create ATS friendly resume
- Get shortlisting

https://docs.google.com/document/d/1_Ef60_Q2KyAJRYNUbEsB77tpTXVV3a75A2XRmGSIsx8/edit?usp=sharing

Be10x’s ATS Resume Generator

https://chatgpt.com/g/g-67b866a648a88191b29e8274026994fd-be10x-ats-resume-generator



Step 1: Go to our customized resume tool.

Step 2: Upload your resume and start the chat

Step 3: After pasting your resume start the chat.

like to lend your expertise to train AI models?

About The Opportunity

- Outlier is looking for talented Mathematics students to help train generative artificial intelligence models
- This freelance opportunity is remote and hours are flexible, so you can work whenever is best for you

You may contribute your expertise by...

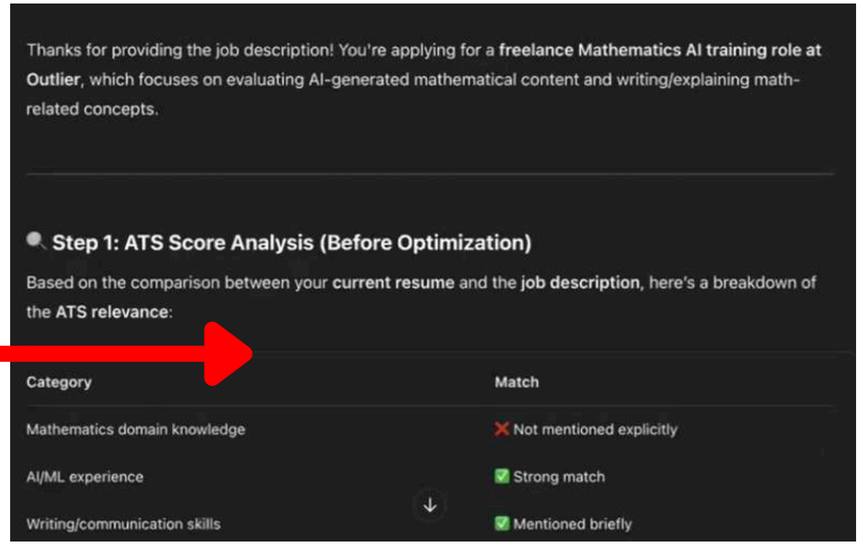
- Assessing the factuality and relevance of domain-specific text produced by AI models
- Crafting and answering questions related to Mathematics
- Evaluating and ranking domain-specific responses generated by AI models

Examples Of Desirable Expertise

After that it will ask you the required job description.

Step 4: Copy the job description and again paste it in the tool.

After that it will provide you the updates it need, your old and new ATS score. Update your resume after this.



Thanks for providing the job description! You're applying for a **freelance Mathematics AI training role at Outlier**, which focuses on evaluating AI-generated mathematical content and writing/explaining math-related concepts.

🔍 Step 1: ATS Score Analysis (Before Optimization)

Based on the comparison between your **current resume** and the **job description**, here's a breakdown of the **ATS relevance**:

Category	Match
Mathematics domain knowledge	❌ Not mentioned explicitly
AI/ML experience	✅ Strong match
Writing/communication skills	✅ Mentioned briefly

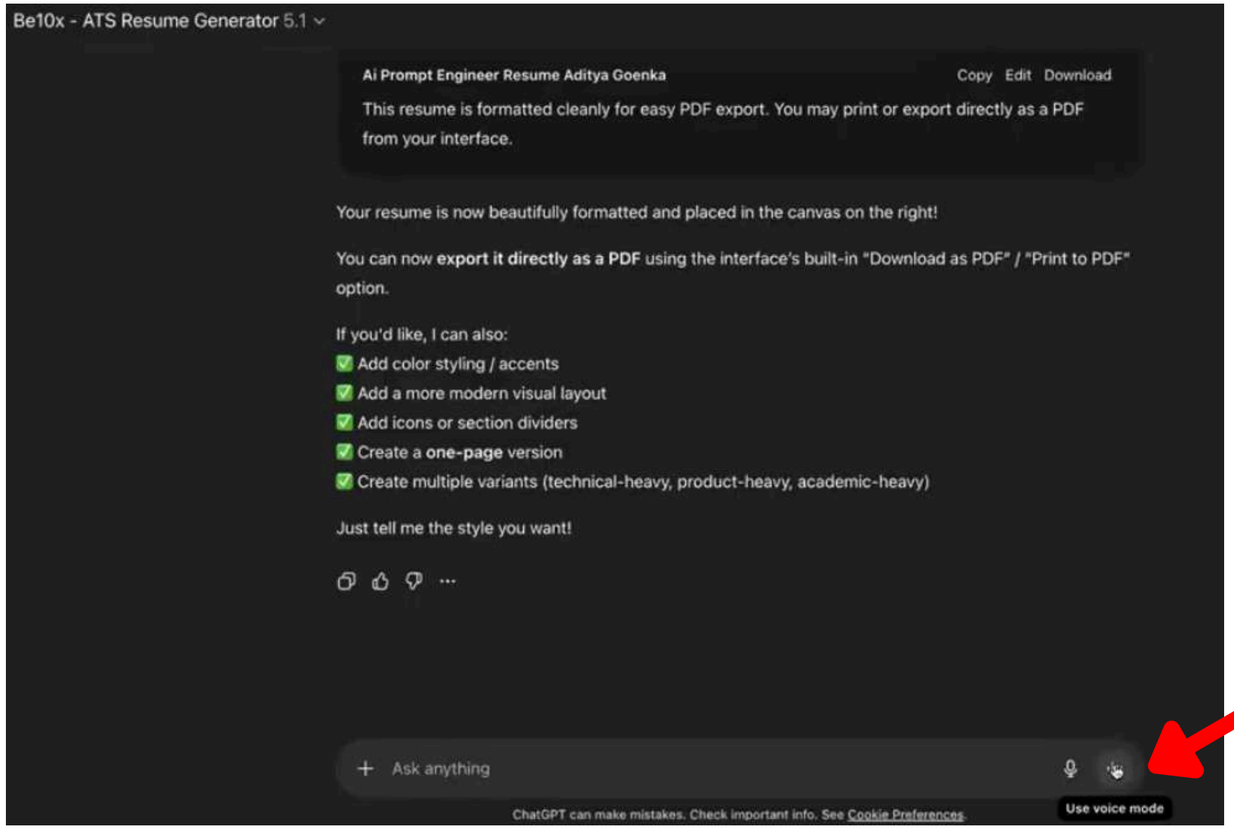
Tool #10

Finally resume got shortlisted but don’t have enough confidence to crack such job interviews?

ChatGPT

APPLICATION:

Use ChatGPT’s Voice Feature to practice real-time mock interviews and boost your confidence!



Use the ChatGPT Voice feature to have ChatGPT act as your interviewer, ask challenging questions related to the job role, and help you prepare for your interview

Tool #11

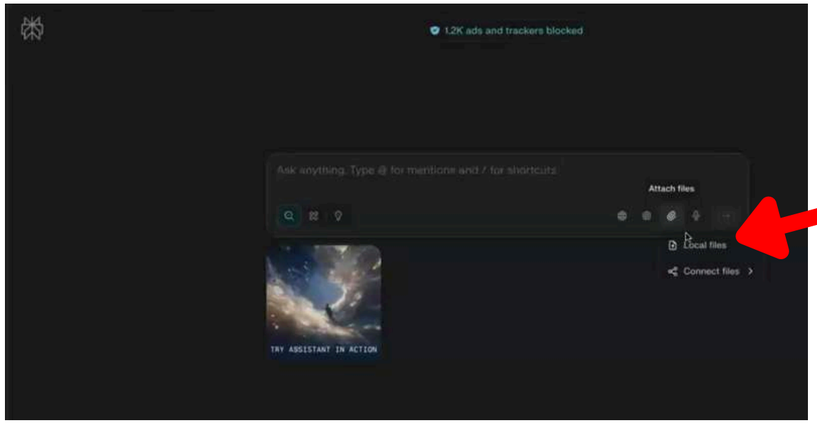
Difficult to find high paying jobs where you can apply?

be10X

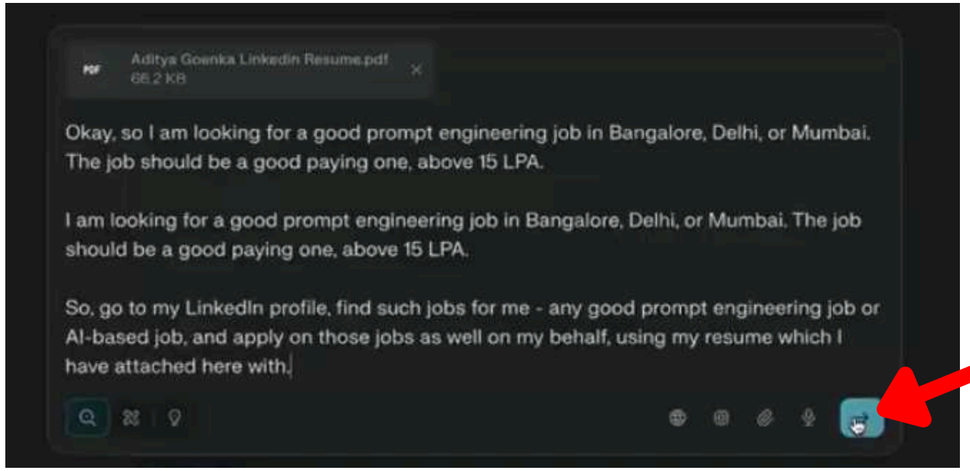
Comet

APPLICATION:

- Use Comet to find and apply for high-paying, AI-matched job opportunities tailored to your profile and goals.



Step 1: Download the Comet browser and attach your resume.



Step 2: Give the promt as per your need and start the chat.

It will go to your LinkedIn and search for jobs based on the prompt you enter.
